### Re: Testimonial

To Whom It May Concern:

I can confirm that Tina O'Hagan Associates Ltd consulted and supplied the heavy-duty catering equipment for the main kitchen contract in the City Hall kitchen Belfast.

They also consulted, designed and supplied the catering equipment and servery in the new coffee shop in the recently opened City Hall Belfast. Both contracts were completed on time and exceeded our expectations.

The value of both contracts was £60,000 plus vat.

We found Tina O'Hagan Associates Ltd and their personnel to be highly professional in identifying our needs, supplying the correct equipment for the job and had a vast understanding of the catering and hospitality industry.

The level of service was very good and this was backed by their after sales service which met expectations when the contract finished. I would recommend their services without hesitation.

Yours sincerely,

  
Peter McKay  
Facilities Manager
